

Class 4 SUPER MODIFIED Mower

This class is for mowers that have had an engine swap for a motorcycle or similar engine, the engine must not be bigger than a 500cc-Four stroke engine or 250cc-Two stroke engine.

The other rules for this class are the same as for class 3 except the drive line Rules which start at the donor engine transmission. The rear axle may be driven by chain or belt.

The Rear axle may use open differential, locked, "live" or solid axle. No single wheel drive.

Centrifugal and or torque converter clutches not recommended.

Rear axle should use shaft locks, centre bolts, or thru-bolts to secure the rear wheels. Maximum diameter 25 mm.
